Meeting about 14th & Marshall - they denied both appeals SNO had, which we thought would be the direction they would go. SNO supports high density, but this project was the high end of high-density for the plot of land they are building on.

2PAC - no report this month

ICE CREAM SNOcial:

Date choices are #1 - September 14. #2 - September 7, need to check with Hillari to see what date works for her.

Put on agenda for the next meeting

GRAINBELT DISTRICT DEVELOPMENT:

What do we want there:

affordable housing over rentals

live/work spaces

Need to talk to the neighborhood to get input!!! Maybe at the SNOcial, set up a separate meeting?, market the August meeting so people can be heard! Use social media to talk about the RFP and try to get people involved. Can we do a survey within social media to see what people want?

Allot some money now so that we can go forward with a plan now instead of waiting until it is too late.

Get the 13th Ave businesses involved - do a comment box or dot survey at these businesses?

Need to have ideas back by September 15
