STEVE FLETCHER UPDATE:

Shooting - community pulling together to support the victim. The police have caught a suspect and because of this we know this was a random incident. The City is interested in working with businesses on security cameras for the exterior building. More patrols have been assigned to our neighborhood for the short-term as well.

Construction around Dusty's - construction is wrapping up on the 14th Ave side. 14th Ave will "return to normal" shortly. The Food Building and residents have asked for 2 hour parking on 14th between Marshall and Grand so The Draft Horse will have parking for their customers.

It is budget season. If you have areas that you want to see the City making investments/improvements - contact the City and/or Mr Fletcher's office.
